- Warm

1.3 Brand Mark Structure

Brand mark structure cannot be altered in any case. Whenever it is needed it should be taken from the original brand mark file.
When the brand mark was structured, the below dimensions were taken into consideration to create a balanced look and feel.

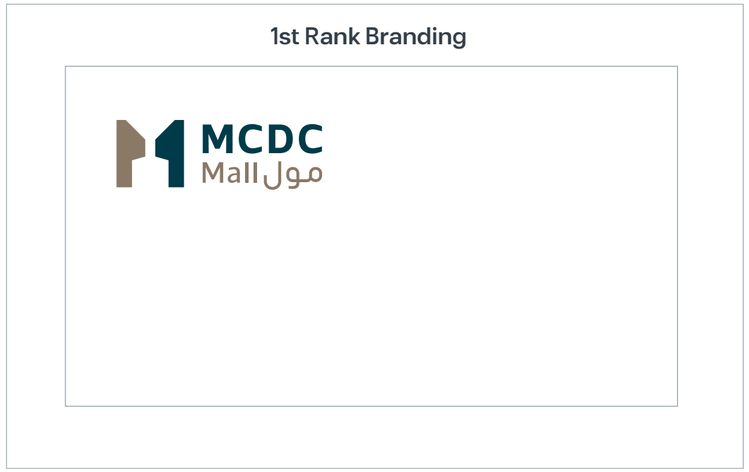

1.4 Hierarchy

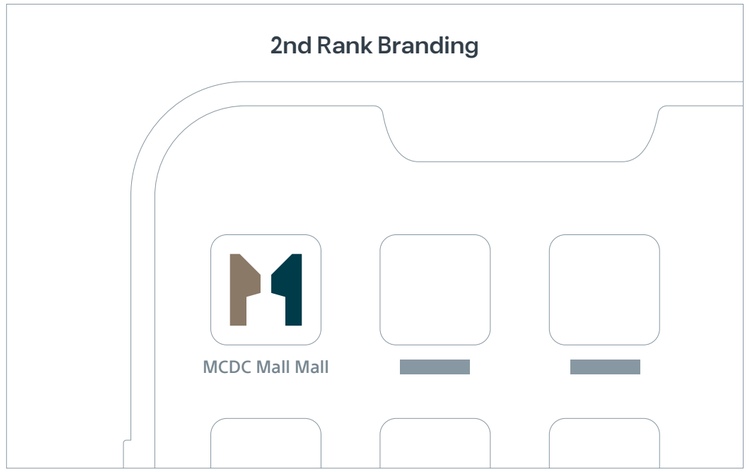

The brand mark represents MCDC Mall as a signature, and therefore appears in every touch point with its audience.

To manage this brand behaviour, follow here shown branding hierarchy:

1st Rank Branding
This is the main form of branding, using the main brand. It is used mainly in brand applications for recognition and communication purposes.

2nd Rank Branding
The brand symbol represents MCDC Mall when an application does not allow the use of a full brand mark.

1.5 Brand mark versions

The preferred reproduction of MCDC Mall brand mark is in its positive full color version on white background.

Alternatively, the logo may be reversed only out of MCDC Mall charcoal background color from the brand primary palette, in order to secure enough contrast for proper visibility and brand recognition purpose.

Use the monochrome (single color) version for special reproduction, such as special ink and paint. The monochrome reverse is the main brand mark version in use for logo placement on colored backgrounds.

When production limitation exists and the use of a full color logo is not possible, the grayscale version is to be applied and not an automatic conversion.

Rarely, the use of bitmap (black and white) version is necessary. Example: fax transmissions, stamps and film exposure for special finishes such as foil blocking and embossing dyes.

Main Version

Main Reverse Version

Monochrome Version

Monochrome Reverse Version

Grayscale Version

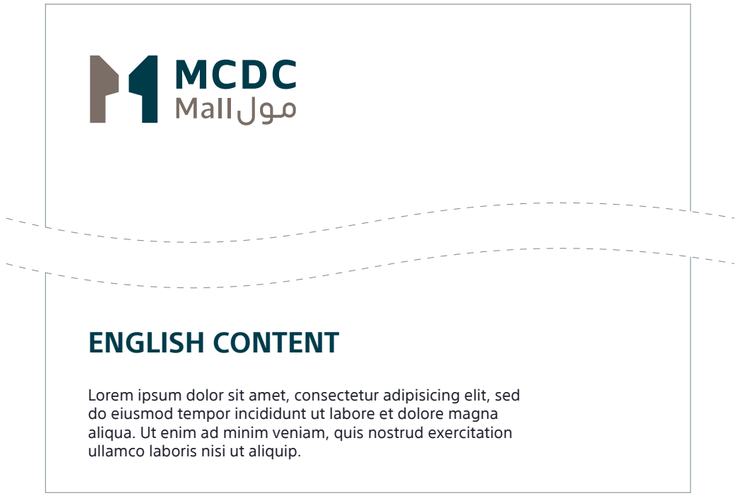

Bitmap Version

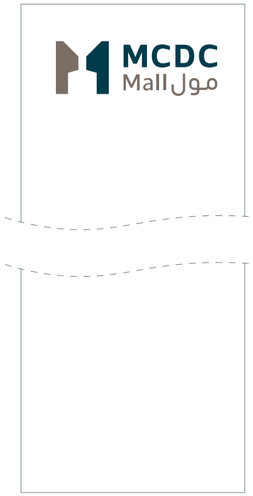

1.6 Brand mark placement

Correct placement of the brand mark will help ensure the integrity of MCDC Mall visual identity.

Whenever possible, the brand mark should appear in the upper right on Arabic and upper left on English applications.

If the format is vertical narrow, like a pylon, the brandmark should appear in the upper center with consideration of the clear space guide.

1.7 Brand Mark In Arabic Layout

The preferred positioning for MCDC Mall brand mark in the Arabic layout is on the top right, or bottom left.

however, when necessary the brand mark can be positioned on the other side.

1.8 Brand Mark In English Layout

The preferred positioning for MCDC Mall brand mark in the English layout is on the top Left, or bottom Right.

however, when necessary the brand mark can be positioned on the other side.

MCDC
Mall مول

2.0 Brand Colors

2.1 Primary brand colors

For consistent brand recognition, MCDC Mall owns a set of primary colors that form the frontline signals with strong recall value. They are mainly presented in the brand mark and they appear first in the brand applications.

Although Pantone® color values are available to serve MCDC Mall as spot colors where applicable, the brand uses process color reproduction - with CMYK values - in most brand applications and communication. For digital applications use the RGB and HEX values.

Use the full color brand mark unless a single color production is inevitable, such as sticker, paint reproductions, and micro size logo.

Do not use automatic conversion of the Pantone® values into process or additive colors.

Pantone Warm Gray 9 C

CMYK: 44, 46, 58, 13

RGB: 138, 121, 103

HEX: #8a7967

Pantone 309 C

CMYK: 100, 8, 20, 76

RGB: 0, 59, 73

HEX: #003B49

20% 40% 60% 80%

2.2 Secondary brand colors

MCDC Mall uses a set of secondary colors to complement its brand personality expression and support the use of prime colors.

This palette offers practical sets of colors that cover all design needs, to communicate to a broad audience a variety of offerings and messages, and stretch from light to dark, warm to cold inks from the Pantone® color matching system.

Please refer to the brand color system for more guide on color usage.

Pantone 2184 C

RGB: 192 - 130 - 22
HEX: #C08216

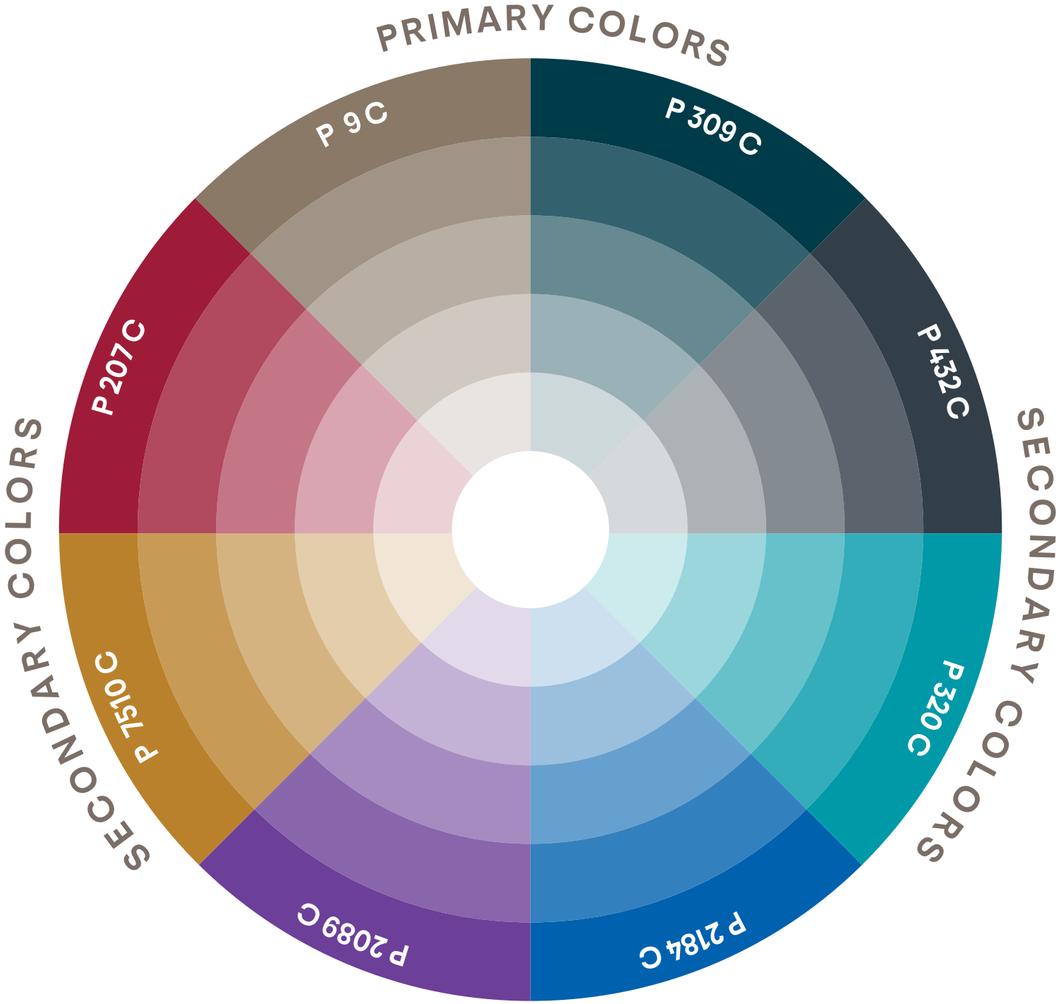

20% 40% 60% 80%

2.3 Brand Color System

These color ranges have been specially selected to support MCDC Mall's visual identity. They form a corporate palette that expresses the brand attributes in the language of colors.

MCDC Mall's color palette includes a dark, light, muted and neutral color range. The colors serve as backgrounds for the corporate signature, area fillers and layout elements in all applications, except for the official items (Example: stationery, only primary colors and one neutral color are used).

The selected collection provides enough flexibility for a designer to create suitable color combinations for all sorts of visual messages. It is allowed to use Bank AlJazira primary colors & their tints (down to 20%) in combination with solid colors or tints from this palette only.

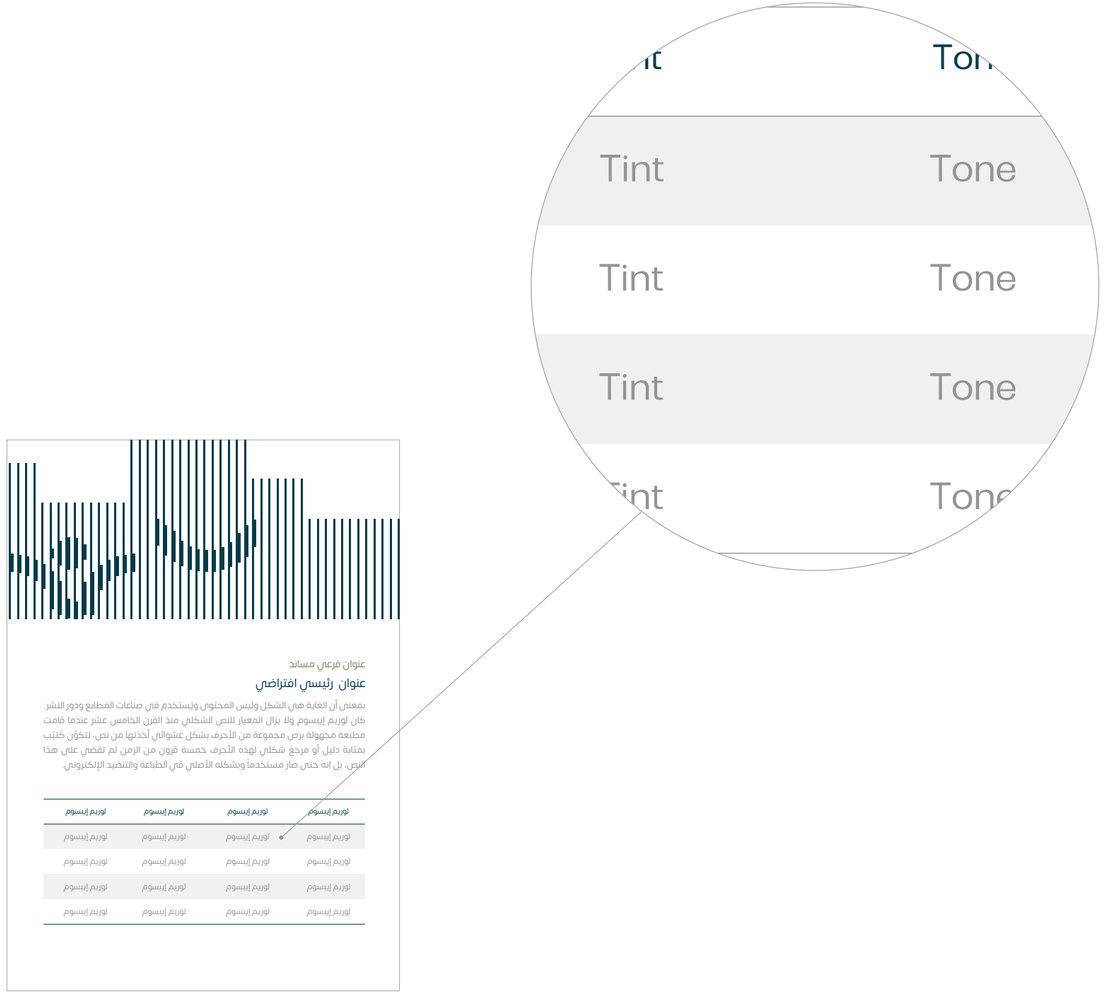

2.4 Color System Usage

A color tint is a mixture of a color ink and white in order to reduce its opacity and make it light and transparent.

MCDC Mall color tints should only be used in support of primary and secondary colors as a way to extend these full tone colors for specific application needs, such as creating charts, graphs, video, web or user interfaces, and layout backgrounds in general.

Tints can be used to create layout hierarchy, separate color spaces, construct overlays and extend core colors.

They can extend the range of primary and secondary colors, it is important though to be judicious when using the combination of colors: too many colors can create unwanted complexity in a design.
Tints should never be used independently from full tone colors of the brand palettes

3.0 Typography Guide

3.1 Primary brand font

To maintain a coherent brand identity, MCDC Mall uses a bilingual typeface as its brand font. It's reflecting the brand image through the use of typography design.

Our brand font is used in all brand applications, communication, web, as well as corporate and legal material.

Do not alter the corporate typefaces. Special effects such as drop shadows, skewing, condensing and extending are not allowed. Type should be set in sentence case letters, block capital letters are not recommended.

Never replace them with alternative typefaces, not even substitutes.

3.3 Typesetting Guide

All applications shall follow a unified typographic style, which requires adherence to a typesetting guide.

Using bold and regular weights in Arabic and Latin, creates the needed text differentiation. In Latin, headings and titles should always use sentence case and flush text alignment. Central text alignment is not allowed. Key messages that require extra stress can use the bold weight, example: quotes. Use true end dashes (—) and not hyphens (-).

4.0 Graphic Device

4.1 Graphic Device

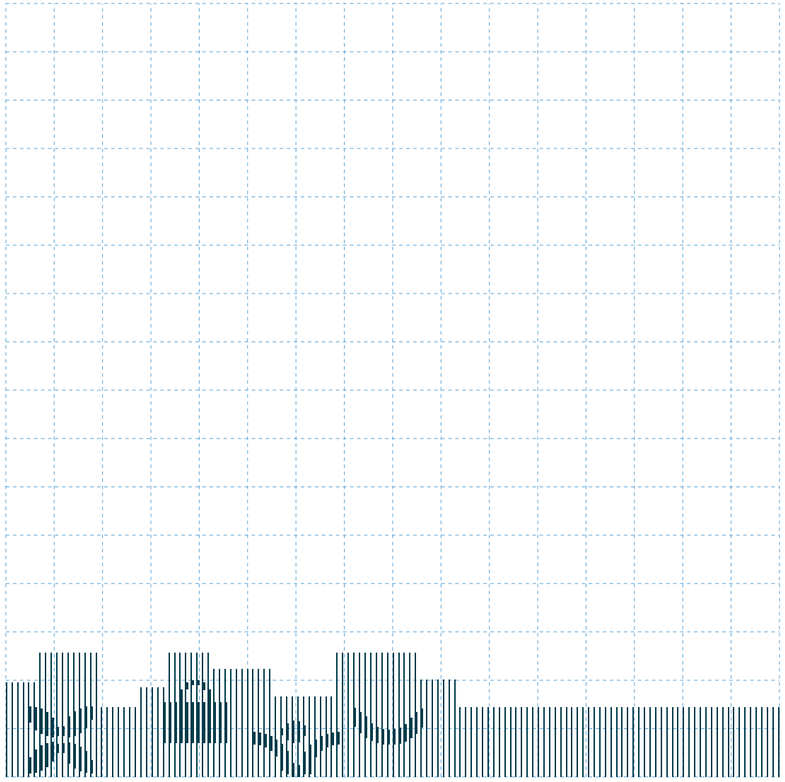

MCDC Mall brand uses cohesively the shown graphic device throughout its touch point, unifying them, reflecting the brand personality.

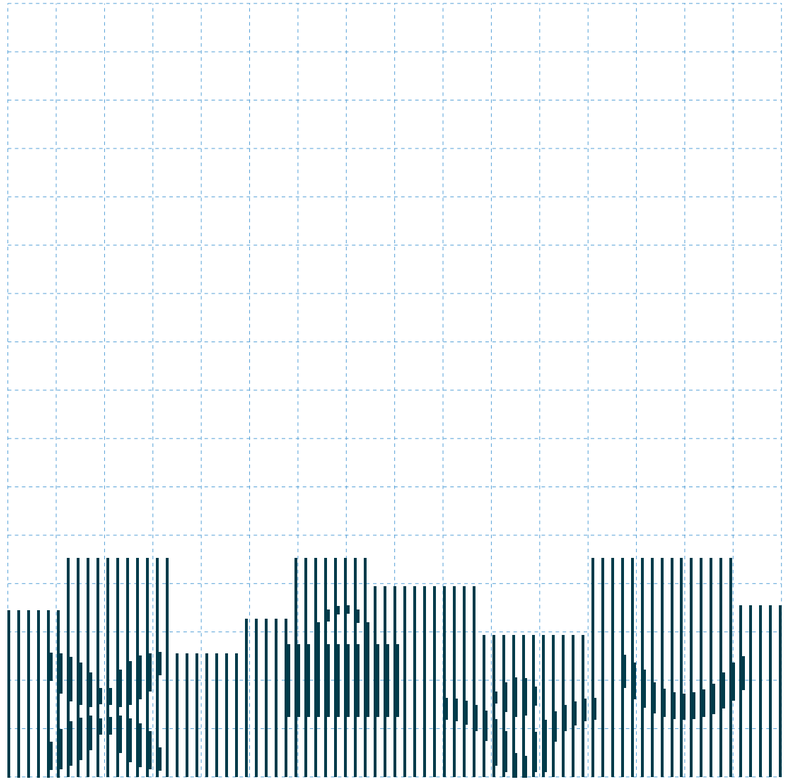

The graphic device helps communicating the brand message.

4.2 Graphic Device

Graphic device can be used in different sizes and placements to serve different brand needs.

MCDC
Mall مول

5.0 Reproduction Guidelines

5.1 Clear space

To ensure prominence and legibility, the brand mark is always surrounded by a minimum area of clear space. The clear space remains free of other elements, such as type, graphics and imagery.

The minimum area of clear space is shown by the rectangular frame containing the brand mark. The construction of the rectangle is based on the height of the square from brand mark symbol. This forms the optimum clear space and may be increased wherever possible.

The rectangle itself is not visible and does not print.

5.2 Minimum Size

To ensure sufficient branding, apply the minimum size rule when placing the brand mark on any communication or advertising material. Size measurement is based on the width of MCDC Mall logo.

20 mm

5 mm

5.3 Main acceptable backgrounds

The figures demonstrate examples of permitted backgrounds for placing MCDC Mall's brand mark.

The main focus is on securing enough visibility and contrast to preserve visibility and maintain consistent branding.

MCDC Mall's brand mark shall preferably appear on white background or black background.

It is not permitted to place the main version of brand mark on another background colors.

5.4 Monochrome acceptable backgrounds

The preferred reproduction of MCDC Mall brand mark is in its positive full color version on white background, followed by the reverse main version on dark background.

Alternatively, the logo may be reversed out of a colored background from brand color palettes. For this need, use the mono color reverse logo version, converted to 100% white, and consider the shown contrast as benchmark for placing the logo on any other sort of dark backgrounds.

When placing the brand mark over an image, choose a homogeneous area to place it on a dark imagery background.

5.5 Unacceptable backgrounds

The figures show examples of non-permitted brand mark placements. Reason here is the reduced contrast and loss of logo clarity.

Avoid using alien colors and apply a suitable color from the supporting palette for placing the positive brand mark version on solid backgrounds. Primary colors offer tints for the same purpose.

Heterogeneous, busy or patterned photographic backgrounds harm the needed brand mark visibility and are therefore not permitted.

Do not place corporate color with insufficient contrast

Do not use a gradient

Do not use an alien or non-corporate color

Do not place the logo on the heterogeneous photographic background

5.6 Misuses

Shown in the figures are some unacceptable uses of MCDC Mall's brand mark. The brand mark should always be reproduced from the master artworks, do not reconstruct the logo.

The brand mark should never be altered, redrawn, recolored or manipulated in any way. It is not allowed to append more descriptors to the logo, such as department names.

Please ensure that MCDC Mall's brand mark is used correctly at all times.

Scale proportionally
(Hold shift button)

Do not distort the logo

Do not use alien colors

Do not outline the logo

Do not change the component proportion or configuration

Do not remove any elements

Do not add any elements

عنوان فرعي افتراضي

عنوان رئيسي افتراضي

لوريم إيبسوم هو ببساطة نص شكلي (بمعنى أن الغاية هي الشكل وليس المحتوى) ويُستخدم في صناعات المطابع ودور النشر. كان لوريم إيبسوم ولايزال المعيار للنص الشكلي منذ القرن الخامس عشر عندما قامت مطبعة مجهولة برص مجموعة من الأحرف بشكل عشوائي أخذتها من نص، لتكوّن كتيّب بمثابة دليل أو مرجع شكلي لهذه الأحرف. خمسة قرون من الزمن لم تقضي على هذا النص، بل انه حتى صار مستخدماً وبشكله الأصلي في الطباعة والتنضيد الإلكتروني. انتشر بشكل كبير في ستينيّات هذا القرن مع إصدار رقائق "ليتراسيت" البلاستيكية تحوي مقاطع من هذا النص، وعاد لينتشر مرة أخرى مؤخراً مع ظهور برامج النشر الإلكتروني.
